

Building the AI sales rep for service teams.

A product preview of the Prospkt app:
lead discovery, voice follow-up, bookings, and control.

Prospkt.ai

AI sales workflow

The workflow we're solving.

Find

Local leads worth contacting

Qualify

Fit, status, source, and rules

Call

AI voice follow-up with context

Book

Outcome, next step, appointment

Keep the motion visible. Automate the repetition.

Owner controls stay in the interface.

Lead engine

Find and prioritize local businesses before a campaign ever starts calling.

app.prospkt.ai / crm

Leads

Prioritized by fit, source, and status.

Business	Score	Website	Lane	Status
Miller HVAC		Outdated	Cold B2B	Queued
A1 Roofing		None	Warm	Follow-up
Grand Rapids Plumbing		Outdated	Cold B2B	New
Bright Cleaners		Modern	Cold B2B	Called

Fit score

Website status

Source rules

Campaigns

Different sales motions need different playbooks, scripts, and guardrails.

Campaign lanes

- Warm recovery

Missed calls and old estimates

Ready
- Cold B2B

Local businesses with service need

Ready
- Consumer outreach

Strict consent and opt-out rules

Guarded

Guardrails

- Calling window

Only inside allowed hours

Daily caps

Budget and call volume limits

Opt-outs

STOP and DNC are enforced

AI disclosure

Rep identifies as AI

Voice follow-up

Test the rep, place calls, log outcomes,
and hand off booked jobs.

Voice demo

- Natural opener
- Human-paced turn taking
- Qualifies before booking

Call outcome

Interested → appointment proposed
Follow-up note saved to CRM
